

Special Events :

Clean up week - Whitman County offers reduced rates to residents in the Spring and Fall each year. Watch the local news or listen for dates on your local radio stations.

Contact us 509-334-2400

-Find out how your Whitman County Recycling Program can help at your next big event!

Light Recycle Washington Program:

January 1st, 2025

Washington State sold Mercury containing lights

- No limit on the number of CFLs that can be accepted per day
- Up to 15 pin-based compact or linear fluorescent lamps can be accepted per day
- Up to 2 high-intensity discharge (HID) lamps containing mercury can be accepted per day

Flow Control: It is unlawful for any collecting agency or other person to deliver or deposit any solid waste generated and collected within the county outside the borders of Whitman County, or within the county except at a " Permitted designated facility."

Your County Transfer Station & Landfill

Carothers Road Site:

Construction of a sanitary landfill on County owned land along Carothers Road between Colfax and Pullman began in 1974 and Completed in August of 1975.

A scale house was added in 1978, landfill accounts were computerized in 1987. The landfill was closed and export of MSW to a regional solid waste disposal site began in 1993.

Since 1993 concrete, asphalt, and other demolition waste has been land filled. A recycling operation with a drop-off center for recyclables was also included.

In 1995 a center to receive and process disposal of household hazardous waste was added to the Whitman County Carothers Road Solid Waste Facility. Yard wastes and lumber are also accepted at the Whitman County Carothers Road Solid Waste Facility. This material is ground and repurposed.

Spring of 2014 ground was broken on a new Transfer Building that was up and running June of 2015. The old transfer building houses the Recycling Program for Whitman County.
